

Download 1998 Bmw 318i Manual Transmission Fluid Atf

Remove 6mm Allen fill plug; green arrows point to fill plug location. Fill transmission with same amount of fluid that was drained. Start engine, then apply parking brake, hold your foot on brake pedal and shift transmission through all gears. The automatic transmission fluid is normally filled with lifetime fluid. BMW defines lifetime as 100,000 miles. Therefore, it is a good idea to service your fluid every 50,000 miles. Changes from 2000 to 2001. 323i is replaced by the 325i and receives a the new M54 2.5L engine with 184hp & 175lb/ft of torque. 328i is replaced by the 330i and receives a the new M54 3.0L engine with 225hp & 214lb/ft of torque.
