IMAQ™ IMAQ Vision for LabVIEW™ User Manual IMAQ Vision for LabVIEW User Manual June 2003 Edition Part Number 322917B-01 Instrument Driver API VIs Instrument driver API VIs are organized into the following six categories: Initialize --All LabVIEW instrument drivers should include an initialize VI. This VI establishes communication with the instrument, so it is the first instrument driver VI called. IMAQ™ IMAQ Vision for LabVIEW™ User Manual IMAQ Vision for LabVIEW User Manual August 2004 Edition Part Number 371007A-01 printf format string refers to a control parameter used by a class of functions in the input/output libraries of C and many other programming languages. The string is written in a simple template language: characters are usually copied literally into the function's output, but format specifiers, which start with a % character, indicate the location and method to translate a piece of data (such ...
