Currently on 40 mg of prozac a day but my anxiety and OCD is so bad i dont know what to do? Asked 17 Aug 2009 by dawniebabie26 Updated 5 June 2018 Topics prozac, depression, post traumatic stress disorder, anxiety, obsessive compulsive disorder, panic disorder, anxiety and stress

In the earliest weeks pf pregnancy, I really found myself craving bland, sort of nostalgic foods. Anything green sounded horrible, and I kept thinking about those plastic-y Kraft cheese slices that come pre-wrapped, mac & cheese, Dominos pizza (as opposed to our lovely, local, artisanal types), plus sorbet and anything sour and synthetic — sour patch kids, skittles etc. Well of course my best of list would be filled with books by Conundrum Press but I can't choose between my babies so here is another list. No best of 2018 list in comics can ignore the monumental achievement Berlin by Jason Lutes. I've been following this series and stopped at one point so I could have it all collected to read through in one sitting.
