Online homework and grading tools for instructors and students that reinforce student learning through practice and instant feedback. Course Content We will study the material in units 1- 24 of FlipItPhysics. Unless specifically announced, you are responsible for all material in these chapters, whether it is covered in lecture or not, as well as any supplemental material actually covered in the lectures. Subatomic physics research is a quest to discover and understand the basic laws that govern the universe. When going beyond the atomic scale and examining matter at distances smaller than nuclei, intriguing patterns and phenomena emerge that reveal the fundamental nature of matter and forces. We're now posting original research! Yes, as of late November we are hosting our own original study titled An Examination of the Effect of Prior Experience, Age, and Gender in Non-Food Blending Predictions. Though this title sounds pretty scientific, it just refers to an experiment I did with putting rubber balls in a blender to see...
