It also includes chapters on the interface between reasoning and other forms of thought. In general, this last set of essays represents growth points in reasoning research, drawing connections to pragmatics, cross-cultural studies, emotion and evolution. But the ultimate purpose of this reasoning is not to figure out what is the case. Reasoning whose endpoint is belief is referred to as theoretical reasoning. Rather, this reasoning (10)–(13) aims to figure out how one should act or practical reasoning. The goal is to figure out what one [I] should do (Millgram 2001). Reasoning: Studies of Human Inference and Its Foundations. They are each oriented toward contemporary empirical studies. The book focuses on foundational issues, including paradoxes, fallacies, and debates about the nature of rationality, the traditional modes of reasoning, as well as counterfactual and causal reasoning. Mental models and reasoning 30 The diagram supports the conclusion: if not red then black, which he accepted. He then checked the inference, working through the premises again, and comparing them with his diagram of the two possibilities. His protocol allowed us to identify his strategy and its component tactics.
